

Hot New Products

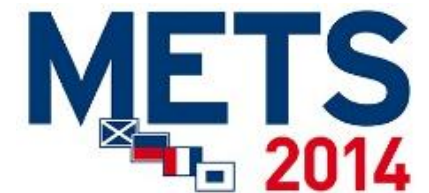

Dealer Preview

Digital Yacht will show 5 new products at this years METS exhibition. You'll find us on **Stand 1:611 18-20 November 2014**

We've also been nominated for a DAME design award for our new AquaWear WLN20 wireless gateway which brings wearable navigation to the marine market and a new category and opportunity for our dealers and distributors.

Thank you for your continued support and we all look forward to seeing you at METS 2014

Class B AIS Transponder

AIT1500 Class B AIS Transponder

- Class B AIS transponder with internal GPS antenna
- Dual NMEA 0183 outputs – ideal for DSC VHF and plotter
- Remote silence switch facility
- USB interface for PC/MAC and programming
- Waterproof, rugged enclosure

“A lower price-point and easier installation utilising an internal GPS antenna brings an AIS transponder to a new market of smaller boats, tenders, jet-skis and OEM installations”

Part Number	Description	SRP US\$
ZDIGAIT1500	AIT1500 Class B AIS transponder with internal GPS antenna	649.95

Class B AIS Transponder

AIT3000 Nucleus Class B AIS Transponder with splitter

- Class B transponder with built in antenna splitter and wireless interface
- Simple installation – shares the main VHF antenna and utilises patented ZeroLoss technology
- FM radio output
- NMEA 0183, NMEA 2000 and USB interfaces
- WiFi support for up to 7 connected devices (iPad/Tablet/PC/MAC)

“The solution for the connected boat with multiple interfaces including wifi for tablets and iPads plus easy installation using the existing VHF antenna”

Part Number	Description	SRP US\$
ZDIGAIT3000	AIT3000 Nucleus Class B AIS transponder with built in splitter	1395.00

The Most Comprehensive Family

Class B AIT1500, AIT2000 and AIT3000

Digital DeepSea

Class A

CLA1000

Next Generation Wearable Navigation

AquaWear – WLN20 NMEA to WiFi Server

- WLN20 NMEA to WiFi Server
- Introduces wearable navigation to boating and a complete new category and opportunity
- Connects via NMEA to just about any system
- Dual inputs (4800 and 38400), easy installation and compatibility with a massive number of apps
- Ships with neat wrist case
- New family of products including AquaWear Race

“Add this wireless gateway to any nav system and enabling next generation wearable navigation”

Part Number	Description	SRP US\$
ZDIGWLN20	AquaWear WLN20 NMEA-WiFi server and wrist case	349.95

On Board Entertainment

AquaMedia AQM200 Entertainment Server

- Bring media on board via USB drive
- Razor operating system for super fast playback and operation
- Supports up to 2 HDMI TVs
- Networkable with wired and wireless interfaces for internet media (Netflix, YouTube, US TV, iPlayer etc)
- 4 x IP CCTV camera input

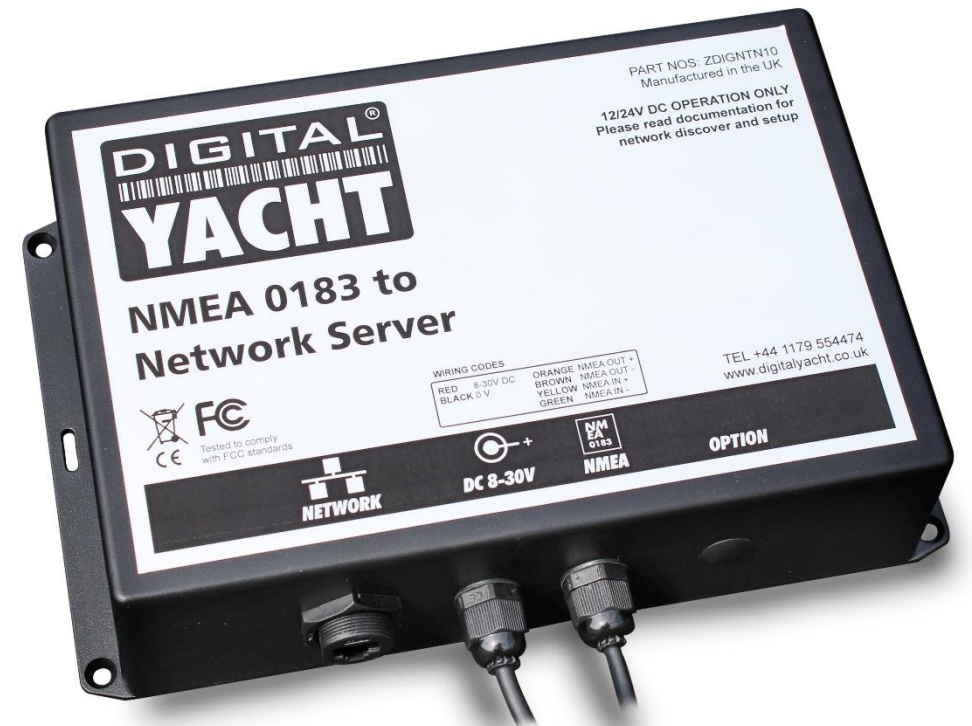

“The solution for on board digital entertainment”

Part Number	Description	SRP US\$
ZDIGAQM200	AquaMedia AQM200 Entertainment Server	1495.00

On Board Networking

NTN10 NMEA to Network Gateway

- Bridges NMEA 0183 data to an existing ethernet network
- 4800 or 38400 baud compatible and can be used with our MUX100 for dual inputs
- Supports TCP/IP and UDP formats - programmable
- Overlay nav data onto existing network – great for use with apps and tablets
- 12/24V operation

“The solution for integrating navigation data onto existing wired networks”

Part Number	Description	SRP US\$
ZDIGNTN10	NTN10 NMEA to network gateway	350.00
